### SATURDAY, DECEMBER 16, 1854.

## DEATH OF THE KING!

KAMEHAMEHA IV PROCLAIMED. After a sprious illness of five or six days, His Majesty, Kamehameha III, expired at His Palace

on Friday, Dec. 15th, at fifteen minutes before 12 o'clock. He was born on the 17th of March, 1813. and was consequently forty-one years and nine

This painful event was immediately made known by hoisting the Royal and National Standards at half mast, and by the firing of minute guns, corresponding with the age of his late Majesty, from Punch Bowl battery.

As soon as the news spread, the flags on shore and affeat were all set at half mast, and places of business were closed. Large numbers of people assembled near the palace and testified their grief by loud and heartfelt wailing.

At half-past 12 o'clock, His Excellency the Governor of Oahu, escorted by a company of Guards, caused the official Proclamation given below to be read, in Hawaiian and English, at the corners of the principal streets of Honolulu. The proclamation of His Majesty, KAMEHAMEHA IV, was received with shouts from the people and evident satisfaction, wherever it was made known.

Minute guns were fired by the U.S.S.St. M. ry's yesterday between 1 and 2 o'clock, and th Trincomalee was firing in like manner when w went to press.

The time for the obsequies of His late Majest has not yet been fixed upon.

#### PROCLAMATION.

Whereas, it has pleased Almighty God to remove from this world our beloved Sovereign, His late Majesty, Kamehameha III; and whereas, by th Will of His late Majesty, and by the appointmen and Proclamation of His Majesty and of the House of Nobles, His Royal Highness, Prince Luioumo, was declared to be His Majesty's Successor. There fore, Public Proclamation is hereby made, that Prince Alexander Liholiho is KING of the Hawaiian Islands, under the style of KAMEHAMEHA IV. God Preserve the King.

KEONI ANA, KUHINA NUL.

Assistance for the Pitcairn's Islanders, It having been reported that the inhabitants this island were in destitute ciscumstances, dona tions of cash, clothing; books, &c., have been mad up in Honolulu for their relief, and will be forwarded to.day by the Amphitrite. An amateur company from the A. gave a performance on Wedne day evening at the Varieties, for their benefit which produced, as we learn, about \$500.

It would seem from the accounts frequently published, that the inhabitants of Pitcairn's Island are becoming too numerous to be sustained by the lim ited resources of the island, and that it will be ab solutely necessary to remove the whole or a part of that singularly interesting people to some localit affording more room and greater facilities for the expansion and support. We have heard it suggest ed that the British government had it in contemplation to transport the colony to Norfolk Island which is much larger in extent, and lies a few de grees to the northwest of New Zealand, and nearly in the same latitude of Pitcairn's. Such a remov al, we apprehend, has become necessary, by the increase of the population, and the sooner it can be accomplished the better it will be for the islanders, who are now subjected to the danger of starvation, should an untoward season or any other disaster deprive them of their limited crops.

From an address to the electors of this distric in the "Elele," we learn that the names of Joh Ii, G. M. Robertson, T. C. B. Rooke and J. W. I Maikai are before the public as candidates for th office of representatives at the election to take place on the first of January next. These are the only condidates we have heard named for this district, and we have no doubt they will be returned by large majority.

The wind being southerly, on the 13th inst the schooner Vaquero was towed to sea by the Ak amai, which got up steam for the purpose. The Golden Gate sailed on the 12th, with a mail for th U. States and Europe. The Vaquero also took mail, small of course, being but a day behind the

## Modern Languages.

Prof. A. L. de Sequeira has recently arrived Honolulu, with very satisfactory letters of recommendation, and proposes to instruct classes of ladie or gentlemeu in the modern European languages

This will afford a rare opportunity for person desirous of learning those languages, and we ar glad to learn that a class is now forming and wil soon commence taking lessons from Prof. Sequira

## Naval.

Since our last is ue, the British frigates Amphi trite and Pique have arrived at this port from Sar Francisco, which makes six men-of-war in our harbor, of three different nations, viz :- 1 Ameri-na, is implicated. cen, 3 English and 2 French. \*

The Amphitrite sails to-day for the South Ameri ean coast, touching at Tabiti and Pitcairn's Island

The U. S. Steam frigate Mississippi arrive hence at San Francisco in eleven days, on the 21s ultimo. Both the Susquehanna and the Mississip pi were to return to the Atlantic, the former about the 25th, and the latter a week later.

H. B. M.'s Ship Plover was sold yesterday, by Messrs. Cobb, Backus & Co., at auction, for \$6, 750. The sale was made by order of her commander, and of Mr. Aiken, the British Consul. The sails, fixtures and stores on board were included. [S. F. Times & Trans.-Nov. 23.

## LATER EUROPEAN NEWS.

Sebastopol not taken. By the arrival of the clipper schooner Restless Capt. Lawton, at this port on the 10th inst. 16 days rom San Francisco, we have dates from that city o the 24th Nov., -from New York to the 27th and

from Europe, to the 14th Oct. The most important intelligence is that which contradicts the fall of Schastopel, which was so confidently rumored by previous advices. Brillian details are given of the battle of Alma, on the 20th Sept. and of the movements of the several armies up to the 6th of October. The synopsis is highly

#### The War News.

Sebastopol is not yet taken, but its ultimate fat s made more apparent every day. It is suppose hat the seige artillery was entirely mounted i battery around Sebastopol on the 4th or 5th o The place was completely invested on the south side. On the 2d the allies had destroyed the acqueduct and cut off the supplies of water from the city, which is supplied by reservoirs. I was expected that an assault would be made soon. probably on the 8th. The Russians have erected sand batteries, mounted with ship's guns; but they could be of little service, the range of the ar tillery of the allies being so much greater. The renches of the allies are within sixteen hundred vards of the walls, and already were mounted with

A private despatch says that two breaches wer nade in the quarantine fort of the 6th, while another statement, quite as reliable, says that no bom ardment had occurred up to the 8th.

The French and English generals bave officially otified their governments that on the 23d of Sep ember, immediately upon the knowledge of the re sult of the battle of Alma, by the orders of Men-schikoff, five line of-battle-ships and two frigates were sunk in eight or ten fathoms of water, thus completely blocking up the entrance to the haror of Sebastopol, and preventing the possibility of an attack by sea. These ships were sunk with their guns and stores on board, and their masts and rigging standing. The English are much in ensed at this costly expedient, as it has contribu ed greatly to cause their generals to change their lan of operations, and to make the attack on the outh instead of the north side of the city. The Russians are also said to be holding the remainng ships in readiness to be sunk, if necessary, and their crews (10,000 men) have been added to he garrison of Sebastopol. It is said that the Russians have also sunk ships

cross the Straits of Yena Kaleh. The allied fleets are, by these operations, rendered of little or no service, and Admiral Dundas has ent the marines on shore to join the army.

A letter in the Times suggests that the powerfu ron steamer Simoon, which, under steam, is equiv ent to a force of about 4,000 tons, should be employed as a steam battering ram to force a passage ver the sunken vessels. This expedient will probably be tried.

From the present disposition of the allied force tween Balaklava and Cape Chernese, it would pear that the north side of the harbor of Sebas pol was not invested at all, and that the whole the country north of Sebastopol had been evac ated by the allied forces, which, however, is very ikely, to pass through it. This supposition is conrmed by a statement in despatches from Admiral Dundas, dated Sept. 28th, in which he states tha aving sent the steamers Albion and Vesuvius to Alma, to collect the wounded Russians and convey hem under a flag of truce to Odessa, as all the British hospitals were full, his men were threatened by a force of 6000 Russians, and had to re-emark under cover of the ship's guns.

All the reserves of the allies had left Varia or the Crimea. Two French and one English reg ents had left Malta to occupy the Piræus.

The Russians are reported to have blown up th rtresses of Anapa and Louchim Kaleh, and sent heir garrisons, 15,000 strong, to reinforce Men-

Odessa advices of the 7th state that Menschikoff ight wing was at Baktchi Serai, and his centre a impheropol, where reinforcements from Perekor ill concentrate. Gen. Ostensacken has been a Perekop since the 2d, and expected to join Menschi koff with his force by the 15th.

The Paris Debats estimates the Russian force i ne Crimea at 85,000 men, and that of the allies a

The two Russian generals taken at the battle of e Alma were named Gonikoff and Tchitchanoff Both were wounded, and one has since died. The ay that the Russians had but 35,000 men at the Ilma, and considering that number was sufficient or the defence of the position, Menschikoff, who was sick, sat upon a chair on the heights and direct d the battle. The Turks massacred all the woundd Russians they fell in with, calling out to them Sinope!" The Emperor Napoleon's new artil ry was found very serviceable in the field.

On the death of Marshal St. Arnaud, Lord Rag an took the chief command of the allied armies and Gen. Canrobert took St. Arnaud's place in com-mand of the French. He is considered very eneretic and adventurous, but as a tactician he is some

There are grievious complaints made that the ommonest surgical requisites are utterly wanting n the British army.

Beelin Friday. The following official Russian espatch was published in St. Petersburg on th 1th: "Nothing fresh had occurred before Sebasto pel up to the 6th. Prince Menschikoff still retain-

ed his old position on the north side." Paris Friday. A private telegraphic despatch om Vienna of the 13th, announced that according o a despatch from Lord Raglan, dated 6th, th eige works of the allies were sufficiently advance to admit of the opening of their fires in a few days.

The Baltic.

Part of Admiral Plumridge's squadron joine the French fleet under Admiral Duchesne at Kiel the 7th. The greater part of the fleet under Admiral Napier were at anchor near Revel. Part were were ordered to Ledsund. It is, however almost

### certain that no further operation will be attempt-Great Britan.

The London Globe says that a conference is asembled on the continent, which is without precedence, acting, as it understands it, under the direc-tions of the President of the United States. The Ambassadors of that country are assembled to exange information, to consult and report to their vernment on the state of affairs on the Continent. American trade is carried to every part of the world and the conference has in view the due protection and advancement of those interests in any new arrangement in treaties that may be made in Europe. Mr. Buchanan left London on Saturday, and he has already been met by the American Ministers from Paris and Madrid

The recent mammoth lie of the fall of Sebastopol is traced to the Paris Bourse. The Emperor has ordered an investigation, and says he will punish with severity whoever shall be proved to have been guilty. The correspondent of the Journal at Smyr-

The British Ambassador has notified the French Sovernment, officially, of the condolence of the British Government on the death of Marshal St Arnaud

The Moniteur publishes letters from the late Marshal Arnaud, showing that the brave old man was aware of his approaching death and ready to meet it. His remains arrived at Marseilles on the 10th, with all honors, and an Imperial decree has been issued that they shall be buried in the Invalides with public ceremonies.

Discovery of the Remains of Sir J. Franklin. Horrible Suffering of Sir John Franklin and his crew-Starvation the cause of their death-Cannibalism, etc.

A letter received by Sir George Simpson, Governor of the Hudson Bay Company, from Dr. Rae, the

celebrated explorer, dated York factory, August 4, 1854, conveys the intelligence of the discovery of the intrepid navigator and his companions, who starved to death, in the spring of 1850, to the northwest of Fox river. The information is regarded as perfect

The expedition commanded by Sir John Franklin ent out in search of a Northwest Passage through he Polar Seas, comprised the ships Erebus and Ter or. It left England in 1845, and from that tim antil August of the present year no trace of then had been found. The vessels were probably ground to atoms amid the ice floes of the Arctic region, and he unfortunate company, in endeavoring to reach e settlement of the Hudson Bay Company, after exhausting the scanty supply of provisions saved from the crumbling ships, lay dewn to perish .-No event in history affords a parallel to the univeral sympathy felt for the fate of Franklin and hi ompanions; and even at this moment, as is well known, an expedition, commanded by our countryman, Dr. Kane, is exploring the ice-locked regions of the North to effect their rescue or verify the fears now fully realized.

Dr. Rae has been absent on the coast since th first of the month of June, 1853, and returning to York factory on the 28th of August last, from whence he forwarded letters by express to Si leorge Simpson, via the Red River settlement. We make the following extracts from the letter

f Dr. Rae abovementioned. I reached my old quarters at Repulse Bay on the 5th of August, and preparations were immediate ly commenced for wintering. On the 1st of Ser aber I explained to the men our position, th tock of provisions we had on hand, (not more than hree months' rations,) and the prospects we had of getting more, etc., pointing out all the danger and difficulty of our position. All readily volunteered to remain, and our exertions to collect food and fuel went on with unabated energy. By th end of September, 109 deer, 1 musk ex, 53 brace of ptarmigan and I seal had been shot, and the net roduced 190 salmon.

On the 31st March my spring journey commen d, but in consequence of gales of wind, deep and soft snow and foggy weather, we made but little proress. We did not enter Pelly Bay until the 19th At this place we met with an Esquimax, one of om, in being asked if he ever saw white people blied in the negative, but said that a large party, Dec. I\_Sh. Hibernin, Jeffrey, 36 m, 1500 wh. least 40 persons) had perished from want of food, some ten or twelve days' journey to the westward. The substance of the information, obtained at various times and from various sources, was as

In the spring, four winters past, (1850,) a party f white men, amounting to about forty, were seen ravelling southward over the ice, and dragging t out after them, by some Esquimanx who were killng seals on the north shore of King William' Land, which is a large Island named Kei-ik-tak, the Esquimaux. None of the party could speal the native language intelligibly, but by signs, the natives were made to understand that their ships or rip, had been crushed by the ice, and that the 'whites" were now going to where they expecte to find deer to shoot. From the appearance of th men, all of whom, except one officer, (chief,)-look ed thin, they were then supposed to be getting short of provisions, and they purchased a small seal from

At a later date, the same season, but previou the disruption of the ice, the bodies of about thirty white persons were discovered on the continent, and five on an island near it, about a long day's journey, (say thirty or forty miles) to the northwest of a large stream, which can be no other an Back's Great Fish River, (named by the Es nimaux, Out-koo-hi-ca-lie,) as its description nd that of the low shore in the vicinity of Ogle and Montreal Island agree exactly with that of S George Back. Some of the bodies had been buried (probably those of the first victims of famine, ne were in a tent or tents, others under a box hat had been turned over to form a shelter, an reral lay scattered about in different directions those found on the island, one was supposed ave been an officer, as he had a telescope strapped ver his shoulder and his double-barrelled gun la

There appears to have been an abundant stock of amunition, as the powder was emptied in a hear n the ground by the natives, out of the kegs ces containing it, and a quantity of ball and sho vas found below high water mark, having bee eft on the ice close to the beach. There must hav con a number of watches, telescopes, compasses guns, [several double barrelled,] &c., all of which ppear to have been broken up, as I saw peices onese different articles with the Esqumiaux, an ogether with some silver spoons and forks, pur hased as many as I could obtain. A list o he most important of these I enclose, with a roug en and ink sketch of the events, and initials e forks and spoons. The articles themselve hall be handed over to the Secretary of the Honor le Hudson's Bay Company, on my arrival i

None of the Esquimaux with whom I converse ad seen the "whites," nor had they ever been a he place where the dead where found, but ha ir information from those who had been there nd those who had seen the party when alive.

From the head of Pelly Bay —which is a bay ite of Sir H. Beaufort's opinion to the contrary rossed sixty miles of land in a westerly direction

aced the west shore from Castor and Pollux Rive Cape Porter of Sir James Ross, and I coul ave got within thirty or forty miles of Bello strait, but I thought it useless proceeding further s I could not complete the whole.

Dr. Rae sent the Governor of the Hudson Ba Company a number of silver spoons, &c., purchase from the Esquimaux, marked with the initials A D. S. G., J. H., J. F. B. or J. S. B.' and a small silver plate engraved "Sir Jno. Franklin, K. C. B. From the mutilated state of many of the corpses and the contents of the kettles, it is evident that our miserable countrymen had been driven to th ast resource-cannibalism-as a means of pr onging life.

## Russian Prisoners.

There are on board the Amphitrite some twelv or fifteen Russian prisoners,-being the Captain and crew of the Russian schooner captured by th cruising in the Gulf of Bothnia, and several ships squadron at the north in August last. They wil be landed at Tahiti, on the arrival of the Amphi trite at that island, and it will probably be a long time before as many English or French scame will be in possession of the Russians, for whor they can be exchanged.

Among the prisoners taken on board the schoon er was a lad of eleven years, a cadet, who remain here in charge of H. B. M.'s Consul General .-He is to be sent back, free, by some vessel in th spring, and will have a good account to give of hi treatment on board the British vessels. Indeed, i respect to good usage, all the prisoners are as wel off on board the British vessel as if on board on f their own nation. They fraternize with the seanen on board, and although not called upon t work, they cheerfully volunteer, and often lend hand, when any extra service is required. Whil on the other hand, if the British sailors have an hing extra nice, they always share it with their riends the Russians. War is deprived of some of ts honors in these modern times, at least after the enemy is placed hors de combat.

FILLIBUSTERS DISBANDED,-Louisville, Oct. 16 .- Col. John Allen publishes a card, stating that the fillibuster ng expedition which has been organizing here for some me past, has been disbanded for want of means. I

The sooner all "fillibustering expeditions" are disbanded, the better it will be for the individual concerned, and the more honorable to the nation in which they are hatched. Such expeditions are justly regarded by all honest and honorable men, as the most disreputable that have ever been undertaken by men who profess to be civilized or christianzed since the dark ages. They consequently re eive no countenance, except from the vicious and corrupt, who would equally countenauce piracy and robbery in any other shape.

#### DR. HUNGERFORD'S PRIVATE MEDICAL OFFICE

CORNER OF WASHINGTON-STREET AND WASHINGTON PLACE, OPPOSITE THE HALL OF RECORDS AND THE LAFAYETTE RESTAURANT, SAN FRANCISCO, CAL.,

HERE all diseases of a private character receive the treatment necessary to effect a peedy and effectual cure of those annoying and dia tressful complaints. The enviable reputation Dr. Hungerford has earned for himself by his extraordin. ary success in all diseases of a private nature, renders it but necessary to state his address; he therefor avoids the long advertisements of bombastic promi of the empiries of the day, so lavishly held out & seldom fulfilled. Medicines are sent to all parts of the country, with directions for their use.

N. B. All letters for advice, enclosing Ten Del. lars (and no other) will be promptly attended to. Remember Dr. HUNGERFORD, corner d Washington-street and Washington Place, San Fran-

Office hours from 9 A. M. to 9 P.M. Testimonials from the Press.

(From the "Echo du Pacifique.") DR. HUNGERFORD.

We wish to call the attention of our readers to the vertisement of this gentleman, whose extensive ractice and great success is sufficient to induce all ose afflicted to give him a call. The Doctor is not ly a regularly educated physician, but he has the inciples of honesty and a heart that can feel for his llow-beings. He has undoubtedly more practice an any other physician in San Francisco, and it is ast increasing. To those acquainted with the Doc-or, we say nothing as to his skill and integrity, as hev are well known; but to strangers we no say, call at the corner of Washington street and Washigton Place, and you will find that a friend in need

PROFESSOR HUNGERFORD. Although opposed to the system of advertising, et we deem it but just to this gentlaman to admit hat his system of treatment in Private Diseases is ndoubtedly the most approved one now in use

(From the "Southern Medical Journal."
